

“Building character one good choice at a time”

American Character Builders has been taking a message of drug abstinence into public and private schools for several decades. Four of the most popular programs are available for schools, churches and other organizations to use in a variety of settings. The programs are available as kits, which include a teacher’s guide, a CD with PowerPoint and other resource material, and thirty student booklets. The kits are also on our website as free downloads. We are raising funds for videos which will deal with bullying, alcohol, tobacco and other drugs. The opioid video – along with lesson plans, bible study and other resource materials – is available on the website. By using powerful stories and statistics, we hope to give students a free, engaging, and entertaining resource that challenges them to build their character. Bible studies that deal with character are also available.

Programs currently available include:

- *Alcohol – It’s a Killer!*
- *Tobacco Awareness*
- *Say NO to Meth, Marijuana & Cocaine*
- *The Bully Issue*

For more information and to download the programs for your church and/or school, visit our website at...

ALABAMA CITIZENS ACTION PROGRAM

ALCAP is the catalyst around which Christians can unite in a consolidated effort to address moral concerns (i.e., alcohol, tobacco and other drug issues; gambling; pornography and other promiscuous behavior; and the sanctity of human life).

ALCAP operates through the generous financial support of denominations and local churches.

ALCAP serves as a resource for churches, schools, other groups and interested individuals working to make Alabama a safer state for each and every citizen. An ethical, moral and responsible lifestyle based on biblical standards is an attainable goal to benefit the entire state.
